Summary

Flutter Developer with **3+ years of experience** building and deploying mobile applications for Android and iOS. Skilled in **Flutter, Firebase, RESTful APIs**, and state management using **Bloc, Cubit, and Riverpod**. Adept at developing scalable and user-friendly applications with clean architecture and modern design principles. Seeking to leverage my expertise in a professional team environment to deliver innovative solutions and continue advancing my technical skills.

Professional Experience

Flutter Developer

Jul 2025 – Present

FortyNineHub | Remote | Present

Egypt

- **Architected modular super-app ecosystem** with 48 independent feature modules (4,406 Dart files) following **Clean Architecture** principles, implementing **Repository pattern**, **Dependency Injection (GetIt)** across 50+ service locators, and **BLoC pattern** for scalable state management
- **Delivered complex integrations** including Socket.IO  real-time communication, DeepAR AR filters, Google Maps/OSM routing, Firebase suite (Auth/Messaging/Storage), multiple payment gateways, background services (audio/location), FFmpeg media compression, and SQLite local persistence
- **Built production-ready infrastructure** featuring NTP time validation for fraud prevention, multi-layer caching (memory/disk/network), Flutter Secure Storage for credentials, comprehensive error handling with Dartz Either monad, responsive UI (ScreenUtil), and complete i18n support (Easy Localization)

Mobile Application Developer – Intern

Oct 2024 – May 2025

Sherkety | Remote | 6 months

Egypt

- Participated in a practical training program focused on **entrepreneurship and startup development**.
- Gained comprehensive exposure to **legal, administrative, and technical fundamentals** of launching and managing startups.
- Acquired tools and knowledge to support **business growth and innovation** within a professional environment.

Career180 (LearnIT Academy) | Remote | 3 months

Sep 2024 – Nov 2024

Flutter Developer - Intern

Egypt

- Participated in a **hands-on training program** focused on Flutter mobile application development.
- Enhanced technical skills in **screen navigation and building custom user interfaces**.
- Applied **Clean Architecture principles** to design and structure applications more efficiently.

Cellula Technologies | Remote | 2 months

Feb 2025 – Apr 2025

Flutter Developer – Intern

Egypt

- Contributed to the development of mobile applications supporting **autonomous underwater vehicles (AUVs)** with sustainable, hydrogen-powered solutions.
- Improved **application performance**, optimized **UI design**, and supported **system integration** for smart robotics.
- Gained experience in applying Flutter to real-world **defense, resource exploration, and marine energy** use cases.

Internship Pakistan | Remote | 2 months

Sep 2024 – Nov 2024

Flutter Developer – Intern

Pakistan

- Developed Flutter applications with a focus on **interactive and elegant user interfaces**.
- Maintained **commitment to remote working hours** while gaining experience in an **international work environment**.

Projects

FortyNineHub Mobile Application

Jun 2025 – Present

Comprehensive Flutter Social Platform & Service Marketplace

- Developed a **feature-rich Flutter mobile application** integrating social media, e-commerce, ride-sharing, and communication tools.
- Implemented **Clean Architecture with BLoC** for scalable state management.
- Built **real-time features** using **WebSocket & Firebase** for chat, notifications, and live updates.
- Integrated **Agora & Zego SDKs** for high-quality video/audio calls.
- Added **Google Maps & location services** for carpooling and ride-sharing.
- Supported **multi-language (Arabic/English)** with push notifications and background services.
- Implemented **secure local storage** (SQLite & secure storage) and **payment gateway integration**.

Technologies: Flutter, Dart, Firebase, WebSocket, REST APIs, BLoC, Clean Architecture, Google Maps, Agora SDK

El Beit BeitaK - Flutter E-Commerce Mobile Application

Oct 2025 – Nov 2025

- Developed a full-stack e-commerce mobile application using Flutter and Dart with Clean Architecture and BLoC state management pattern, integrating 6+ feature modules (authentication, products, cart, checkout, orders, and user profile)
- Built dynamic product catalog with real-time filtering by category and country, search functionality, and offline caching strategy using Hive NoSQL database with API fallback

- Designed complete checkout flow including multi-step wizard, address management with GPS-based auto-fill, dual payment methods (Cash on Delivery and credit card via WebView integration)
- Integrated Firebase ecosystem (Cloud Messaging for push notifications, Analytics for tracking, Remote Config for feature flags) enabling real-time app control and user engagement

Tkween – Book Store App [🔗](#)

Mar 2025 – Mar 2025

- Developed a **full-featured book store application** using Flutter.
- Implemented **secure JWT authentication**, **guest mode**, **integrated payment system**, and **order tracking**.
- Published on both **App Store** [🔗](#) and **Google Play Store** [🔗](#).

Sherkety App – Company Formation Platform

Nov 2024 – Jul 2025

- Developed a **comprehensive company formation app** with detailed guides on business types and registration processes.
- Integrated an **AI-powered chatbot** for real-time assistance.
- Built a **business card system** with scanning and sharing capabilities.
- Planned for publication on both **App Store** and **Google Play Store**.
- Company link: Sherkety [🔗](#)

Yalla Rehla – Travel Booking App [🔗](#)

Jul 2025 – Jul 2025

- Developed “**Yalla Rehla**”, a travel booking mobile application.
- Implemented **dark/light mode** and **multi-language localization**.
- Integrated **AI-powered search**, including **image-based search** and an **AI chatbot** for product recommendations.
- Built a **complete booking system** with **online payment integration** using **Paymob**.

Technical Skills

Programming languages

- Dart & OOP & SOLID
- C++

Version management

- Git & version control systems

Frameworks

- Flutter

Databases

- RESTful APIs
- FireBase
- local databases (Hive/Sqflite/ISAR)

State Management

- Bloc/Cubit
- Riverpod
- GetX

Interface design tools

- UI/UX
- Animation

Application architecture

- Clean Architecture
- MVVM Architecture

Education

Digital Egypt Pioneers Initiative (DEPI)

Egyptian Ministry of Communications and Information Technology

- Participant in an **intensive training program** specializing in the **Mobile App Development track**.
- Gained practical and theoretical knowledge in modern **mobile development technologies and practices**.

Oct 2024 – Jun 2025
Cairo, Egypt

Bachelor of Computer Science

Faculty of Computers and Artificial Intelligence, Fayoum University Graduated: 2025

2021 – 2025
El Fayoum, Egypt

Mobile Development using Flutter – Intern

Information Technology Institute (ITI) | Remote | 3 months

- Focused on **developing mobile applications using Flutter**.
- Learned the **fundamentals of Dart and Flutter**, including navigation and UI building.
- Acquired essential skills to build **complete projects with functional and user-friendly interfaces**.

Sep 2022 – Dec 2022
Egypt

Courses

Mobile Development using Flutter – Information Technology Institute (ITI)

Sep 2022 – Oct 2022

Cyber Security – Information Technology Institute (ITI)

Aug 2023 – Sep 2023

Complete Flutter & Dart Development Course – Udemy

Aug 2023 – Oct 2023

Flutter Advanced Course: BLoC and MVVM Pattern – Udemy

Aug 2024

Flutter Clean Architecture – Udemy

Sep 2024

Git and GitHub – Coursera

Apr 2022 – May 2022

Introduction to Artificial Intelligence and Applications Training – Zewail City

Aug 2023 – Oct 2023

Volunteers

GDSC Fayoum University [🔗](#)

Flutter Developer instructor

Oct 2025 – present
Faiyum, Egypt

Idea Community [🔗](#)

instructor for problem solving (C++)

2023 – 2024
Fayoum, Egypt

Google Developer Student Clubs

Cyber security Member

2022 – 2023
Fayoum, Egypt
