Summary

Flutter developer with over 2 years of experience developing mobile applications for Android and iOS. I seek to apply my skills in a professional work environment and contribute to creating smooth and innovative applications. I have extensive experience in dealing with Flutter, Firebase, RESTful APIs, and state management using Bloc/Cubit And Riverpod, and I aim to develop my skills within a professional team.

Professional Experience

Sherkety - Intern 6 months (Remotely), Mobile Application Developer - Practical training on entrepreneurship and startup development. - Comprehensive coverage of legal, administrative, and technical essentials. - Designed to equip participants with tools for successful business growth.	Oct 2024 – May 2025 Egypt
Career180 (LearnIT Academy), Flutter Developer Intern - Intern 3 Months (Remotely) - Participation in a training program for developing mobile applications using Flutter. - Enhancing technical skills in navigating between screens and creating distinct user interfaces. - Apply the Clean Architecture concept to design applications efficiently.	Sep 2024 – Nov 2024 Egypt
Cellula Technologies - Intern 2 Mounths (Remotely), Flutter Developer Cellula Robotics Ltd. develops autonomous underwater vehicles (AUVs) with sustainable, hydrogen-powered solutions. - The company provides advanced robotics for defense, resource exploration, and marine energy. - As a Flutter Developer intern, I worked on app performance, UI design, and system integration for smart robotics.	Feb 2025 – Apr 2025 Egypt
Internship Pakistan - Intern 2 Months (Remotely) - Develop Flutter applications oriented to use interactive and elegant user interfaces. - Commitment to specified working hours and gaining experience in an international work environment.	Sep 2024 – Nov 2024 Pakistan
CodeAlpha Internship App Development Intern - 3 Months (Remotely) - Implemented practical mobile application projects using Flutter, focusing on improving performance and user experience. - Collaborate with a diverse technical team to develop MVVM architectural applications.	Sep 2024 – Nov 2024 India
ITI Mobile Development using Flutter - 3 mounths (Remotely) - The internship focused on developing applications using Flutter, - where I learned the basics of Dart and Flutter, navigating between pages, and other essential skills required to build a complete project with a user interface.	Sep 2022 – Dec 2022 Egypt

Projects

Tkween  - Developed a fully featured book store app using Flutter with secure JWT authentication, guest mode, integrated payment system and order tracking. App Store  Google Play Store 	Mar 2025 – Mar 2025
